Description of Bulletine of State of St

MEDICINE IN THE WORLD.

Le secretario offeste un alera from the land day of the administration by Reinstein and Contract of the land of the administration by Reinstein And Contract Offestein Contract Off

INSTANT RELIEF and retricting sleep for Skin-tortured Bables and rest for Tired Mothers in warm baths with Contours Soar, and gentle anomings with Corrected Contours; the great skin one and purest of emollients, to be followed in severe cases by mild doses of purest of emollients, to be followed in severe cases by mild doses of RESOLVENCE PILLS, to cool and cleanse the blood. This is sweetest, most speedy, permanent, and economical treattorturing, disfiguring, liching, burning, bleeding, scaly, and pimply humours, seezemas, rashes, irritations, and with loss of hair, of inishts and children, yet compounded.

Assisted by Currence, Oranger, for preserving, purifying, and beautifying the skin, for cleaning the scalp of brusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for haby rathes, itchings, and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers, and for all the purposes of the tollet, bath, and nursery. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic total soap, however expensive, is to be compared with it for all the purposes of the tollet, bath, and nursery. Thus it combines in One Soar at One Paice, the sur agin and complexion soap, and the BEST tollet and BEST baby toap in the world.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new tasteless, brated liquid Curroura Resolvent, as well as for all other blood purifiers and humour cures. Put up in screw cap pooket vials, containing 60 deses.

col Co Agents of the search 11 how comes orew were taken to hound the fright Com mander at Calcula under a contract for one year commencing from it. December ist, when they agued the articles, to the lat December next. During the course of voyage to Japan the vessel was sunk on July 24th by a Russian man of war under streamstances stready published. The crew were taken prisoners and eventual. y sent from Vadivostock in a German steamer to Mororan in Japan, whomes sided by the British Consul they were sent by the B. I. S. N. Co. a steamer Unda to Singapore and transferred to another steamer, trriving in Calcutta on October 25. According to the articles the services of the crew would have terminated on December 1 next, but they defend wages from December I deat to October 25, the date on which they arrived in Caloutta The Shipping dister told them that the sgents were willing to pay their wages up was sunk by the Russians, but the crew considered they were entitled to wages upto Octuber 26. The Magistrate granted the notice applied for.

The other day, the M. M. s.s. Tourens collided with a native brigantine at Colombe, The latter sank. Her owners intend to sue the M.M. Company for damages. The cargo of the brigantine is valued at 10,000 Rupees, and the vessel at 20,000 Rupees.

The first-class cruiser Terrible of 14,200 A trial tons displacement and 25,000 hotse-power. is now on Langay to the Offine station. She conveys to dead orews for the Vestal, Bipoldo, Alcordy, Repiegis and Tweed on that station. The Terrible only lately returned from the China station with the relieved crew of the battleship Albron.

> The latest addition to the Clan Line of steamers is the Lord Maintains, expected to arrive at Colombo shortly com before on her madem veryge. She is 45 feet long of seet broad, and 29 feet deep and carries 7,000 tone on 25 feet draught. The speed of the veesel will be 12 know produced by triple expension sognies. 6 3,000 horse-power. She was the first reset built on tae new bergham Mosers. Doyford's ship-

> The Hibia had an awkwart experience at Singapore on her outward passage. It appears that his vessel got alonguide he whart after some delay, a very strong tide running. The gangway had been run ashore and a sw people went in and out when the forward spring bloke, and the tide caught her bow and swung the stem ting the wharf. The after spring tore up the bollard, and the vessel dufted away in the direction of Passix Panjan. See was there anniapred and the mails and passengers sent ashoroby launches.

BE SOLD BY ORDER OF THE EXECUTOR ie will of W. STUARTHARRISON

WASSELL TO ESTATE OF THE PARTY OF THE PARTY

the 7th day of December 1914, at So clock, at their Sales Rooms, Ibe House Street. Mesers HUGHRE & FOUGH

The state of the state of the ie Bath on sub-section

Lownon, Sept. 3. In order to test personally the new assethetic known as the blue light eyetem, by which tooth extraction is rendered pain. ses, the Genera correspondent of the Dady Mail has just undergone an operation for the removal of troublesome molar at the hands of Dr. Camille Redard, the Swiss

discoverer of the mathod. Having placed his patient in a recumbent position, the doctor impressed upon him the great importance of faith in the new process and then commended him to gaze steadily at an ordinary sixteen candle-power electric light with a blue glass bulb, fixed within eight inches of his eyes. Behind the lamp was a reflector. After covering the patient with a large blue cloth the doctor left the room.

'I found myself gazing at the dazzling blue light, which gradually seemed to penetrate my eyes and pass out of the back of my head, writes the correspondent. first I felt a slight burning sensation, which in turn gave way to one of coolness around the eyeballs. This feeling passed, and I felt nothing more out of the ordinary except that a somestion of rest came over me, MANAGER, MITSU BISHI CO., WITH and my hands, which were trembling slight, ly before were perfectly still now. My tenses never left me and I plainly heard the doctor entering the room

He took away the cloth spidly, placed NAGASAKI, MOJL KOBE, KARATSU the blue electric light farther away, tilted the chair up slighty, and signed to me with the instrument to open my mouth. I felt the instrument grasp the tooth and watched the doctor pull The next instant I saw SHANGHAI: H. J. H. TRIPP. the molar before me, not having felt the elightest pain.

'Any pain Tasked Dr Redard, and added quickly, 'I should not ask that question, because I saw by your face that you felt nothing. And it was true There were no after offects, and I found mys if seated in the Imperial Arsenals; the Imperial Railthe waiting room, soon after chatting

pleasantly with the doctor. During my personal esperience, ' said the doctor, 'I found that the blue light has a soothing effect on the optic nerve. and l put the discovery to pactical use. obtained also nearly the eams effect with the green light, but I had more lattures, and I discarded it for the present method. am still continuing my experimen with different calaurs, he added, which I am convinced, when their real properties are fathomed, will produce a revolution not only in dentistry, but in therapoutice, in which we are so hackward."

NEW RUSSIAN LOAN.

LONDON, November 24. The German bankers have taken up twenty, and the Paris bankers thirty millions of the Russian 5% loan of 230,000,000, rudeemable in five or goven years, to be issued in January.

[N.-C. DAILY NEWS SERVICE.] NEWS FROM THE SHAHO.

Toxio, November 20. At dawn on the 18th inst. a Russian detachment made a counter-attack near Heinlungtun, on the left bank of the Upper Shaho, which was repulsed. Since the morning of the 18th inst. the Russians in the vicinity of Shahopso have been indirectly bombarding with large mortars and fieldpieces, presumably for the purpose of destroying the Japanese defences, but so far without doing any damage. The same day, a body of Russian infantry was discovered near Hsisoyentsai. The Japanese opened fire, and the Russians fled in confusion. Huanglashihtun and other villages to the south have been burnt by the

Russians.

An authentic report reached here to-day to the effect that a small detachment of Russian forces have made frequent attacks upon the Japanese positions but all were repulsed. On the 19th November now Russian reinforcements were sighted in the front as well as in the direction of the Japanese right wing. In the direction of Tientien, a Japanese scouting party on countered fifty Russians and repulsed them towards the north and there are now no Russians south of Knisin (1).

> THE POSITION AT PORT ARTHUR.

Tokio, November 19. It is unofficially stated that the forts on Erhlungshan and Bungshushan were blown up at 2.30 p.m. on the 17th inst.

It is reported that the Japanese mining operations resulted on the 17th inst. in the blowing up of the flanking defences of the forts on Ehrlungshan and Sungshushan, destroying the bulk of the Russian machine ouns and breastworks

[According to Vindimir's The China Japan War, Sungshushan (Pino-Tree Hill) is 103 metres high, and had one fort on it ton years ago; Ehrlungshan (Two Dragon Hall) is 82 metres high, and had seven forts on it. These, with the forts on Itzeshan (Chair Hill) form the key to the whole defence of Port Arthur .-- En. N.C. Daily News,

It is reported that the fourth general attack on Port Arthur has been com-

ANOTHER GENERAL ATTACK.

CHEROO, November 21.

THE THALES CAPTURED. TORIO, November 21. The ex British steamer Thules, bought from the Douglas Steamship Co., Id., and

now the German steamor Veterare, with quantities of winter clothes, blankots, medicine and meat on board, which was steering for Port Arthur at 3 a.m. on the 19th inst., near Chefoo, was chased and Tatsuta. The captain stated that his vessel was destined for Newchwang, but she was recognised as an intending blockade-runner.

Estraordinary Mosting.

An extraordinary general meeting of the Green Island Company Lighted was held at the Company's office, St George's Buildings, this morning. The Hon, R. Shewan-presided and there were also present Hon. Sir Paul Chater, Hon. W. J. Gresson (consuling Committee), Mosere E. A. Hewett, A. Turner, C. A. Tomes, T. Skinner, R. C. Wilcox, F. D. Goddard, Fung Wa Chun, and N. H. Rutherford (Secretary). The notice convening the meeting was read by the Se cretary which set out that it was for the

That the Capital of the Company be The former was for parsons who had no in increased from \$1,000,000 (divided into 100,000 Shares of \$10 each to \$1,500,000 divided into 150,000 be offered and if accepted to be allotted to the perions constituting the Bhireholders of the Company February, 1905, at a premium of \$10 holders thereof; the amount payable on each of such Nev Shares respectively (locluding the said premium of \$10 per Share) to be paid as to one equal half part thereof on the 31st day of March, 1905, and as t the remainder thereof (Including the balance of the said premium) on the 80th day of June, 1005.

"And that failing such allotment as aforesaid the said n w shares he disposed of by the General Managers in accordance with the Company's Articles of Association.

And that for the purpose of facilitating the carrying into effect of the above Resolution the Transfer and other Books of the Company be closed. the space of seven days as on and from the 1st day of March, 1905. The Chairman said :- Gentlemen, before

I proceed to put the resolutions just rei to the meeting I will, as brisfly as possible explain the necessity for more capital. We have added to and extended the capacity of the factories here and at Macao unit we can go no further. We have now reached a total output of 34,000 barrels month, but the demand has more than kept pace with our enlargements so that in apile of all, we have still to suffer the chagrin of seeing good orders go past us. We have therefore, to practically begin an additional factory; After very thorough study of the whole question we have decided to put u a Rotary Plant instead of Aulborg Kills as before. Rotary Kilns are now giving tended since he had been in the Colony. great satisfaction in Europe and America To begin with the first coat of the plant considerably less and in our case the saving is still greater as we can tak advantage of a good part of our present in stallation for the working of these Kilns while as compared with the old Kilns th quality of the coment produced though not on the whole any higher than at present will have certain qualities which will recommend if to a particular section of bur customers. Our Superintentent Mr Uldall studied these kilns at home some time ago and recommends their adoption, and our Chief Engineer Mr Hewitt being on a hollday we tuck advantage of his presence in Bombay, when the disease broke out first flags made their way up stream to the unconditionally contribund. England to place orders for a two Botary with fearful violence in 1896, there's Kun Plant complete, making as far as post to be a hope that by strict isolation and racing course. The Hongkong contingents sible, special arrangements for adding one stringent measures of disinfection, it might arrived here by the morning boats and Treaty of Paris, to decide provisions ditors will be sited to consider whether Rotary Kiln on more if required later on be quickly stamped out. This hope had were welcomed by the Canton Club. The These two Rotaries will give us about now given way to a more rational belief first race was timed to start at the conditions and set upon the whether their the Creditors, will entertain and was between British and generally accepted International law that a proposed the a Composition of Scheme of the new plant, which we estimate will be something under \$400,000. Our present overdraft with our banker in \$486,00 and there is the dividend which may be conditions favourable to the propagation post Pair oars was a fine race bethat altogether the proposed \$1,000.00) new 1 capital and premium will not be more than The principles of sanitation were simple.

We shall, however, be in a much stronger position, and, as the more we make the letting of light into dark places. lower the cost, we should be able to while the principles were simple their approduce our cement at a price which should dely competition. As every one knows this Company had to pay devrly for its experience, it cost us practically all our original capital and years of work at struggle against adverse conditions, which do not obtain in Europe of America, and we do not envy any rivals who should

We have had an unusually good year but we cannot count upon always baving a large Admiralty Dock contract to fall back upor such as we have at present. It is never safe to prophesy unless one knows, but as the end of the year is so near and I know that shareholders are anxious for a word the subject I will go so far as to say the at a rough estimate, for it is impossible give figures that are at all exect without taking stock and closing all our books, our profit this year should be about 40 to 50 per pent, more than last year.

There being no amendments the Chairman moved the adoption of the resolution as read by the Secretary.

Mr.E. A. Hewett peconded the motion He was sure that all present aupreciate the excellent manner in which the business of the company had been developed and the success that had been attained, which fully justified the proposals that were before. meeting. He was not in a position to exsaid revarding the experiment that it was I proposed to make with the new kilns, but he believed the Company was correct

HOYALINA HILLAND TO THE PARTY OF THE PARTY O

The Governor's Opinion of Sanita Heal

the City Hall, yesterday afternoon, when lis Excellency Sir Matthew Makage prosented the certificates was at the recent exeminations by members of the Sanitary Institute. Dr J. M. Atkinson (resident of the Sanitary Board) cocupled the chair." Dr Atkinson, in the course of his opening

remarks, said that the Hongkots branch o the Sanitary Institute was opened by Sir Henry Blake, on October 6, last year, and during the first session 35 lectures, and two emonstrations, were given. The c were held at Queen's College and were well attended. The exeminations took place purpose of passing the subjoined resol- in March last for certificates in practical sanitary science, and In-

spector of Nuisances tention of becoming sanitary officers but certificate of their knowledge of canitary Shares of \$10 sach) by the creation science. Candidates for the Impector of of 50,000 New Shares of \$10 each to | Nuisances certificates were required to have a practical as well as a theoretial knowledge of the subjects set out in the syllabore. Seven candidates presented themselves for according to the Company's Register the practical science sertificates, of whom of Shareholders on the 28th day of four passed, and sleven for the Inspectors' examinations, of whom sight passed. With for each and every single Share of reference to the latter two prizes were prosuch 50,000 New Shares in the ratio sented, one of \$50, by Mr Fang Wa Chun | She wants a St Andrew's ticket for a and proportion of one New Sharefor to the first on the list, which was won by every Two Old Shares in the Com- Inspector H. J. W. Gidley, and one by pany hold by the respective Share- Dr Pearse of \$25, which was won by Mr R. Bennett. Thanks to the liberality of of their Chinese friends the Institute had been able to hire a large room in Wyndham Street, which was

as a lecture and reading room. In February next a course of lectures for inspectors of meat and food would be given by the Colonial Veterinary Surgeou, and the Home Institute was to be applied to for the necessary instruction to hold in examinstion. In addition to this an idvapoed course of arithmetic was held every Monday evening. He thought he might fairly congratulate inspectors on the growth of the branch of what was now the Royal Sanitary Institute, se His Majety the King had extended his patronage to it. In asking His Excellency to present the certificates Dr Atkinson pointed out that five of the eight who had been successful in the Inspector of Nuisances examination were sanitary inspectors, and two of them, the Gidley brothers, were born and educated

The Governor then presented the cortificates in the following order :- Practical Sanitary Science, P. A. Cunningham, R. E. Hemmings, J. Lemm and A. P. Samy. Inspectors of Nuisances under the Public Health Act. R. Bennett, G. W. Coysh, H. J. W. Gidley, S. W. Gidley, J. T. Long-

staff, G. Morphew, John Reidie and W. H. His Excellency said that he looked upon the ceremony which had just taken place as one of the most important he had at-The future progress of Hongkong largely depended on the extent to which they could eradicate those diseases which disorganised labour and periodically affected intercourse with other countries. No Governor of Hongkong was likely, once having read it, to forget the picture drawn by Sir William Robinson of the condition of the city at the beight of the first plague epidemioten years ago. Since that first visit each succeeding year had added to the plague death roll though fortunately, it had never again attained to quite the high figure of 1894. Each

succeeding year had also seem some modi fication in plague procedure. Here, as quickly as possible, but of necessity gradually, that the recurring epidemics of the mile were stores lengths to could be prevented. The removal of the of disease in a town was what was meant by the sanitation of that town, They might be summed up as pure air. clean water, unpullated ground, indethe plication, by efficient ventilation, good water supply, schemes of effective dainage, sanitary systems, and the intelligent designing of houses was complicated, and required

a knowledge of many details not in themsolves attractive, and the practical application of this knowledge under conditions tempt to take a new concern through all The sanitary worker in his efforts to secur that of necessity were often approprient. the practical purity of the town must study its physical impurities and work under these impure conditions. In so doing he established the atrongest possible claim to the respect and gratitude of the community. This claim was recognised where he works amongst people, who appreciated the relation between cause and effect. His task was undoubtedly more difficult here in China, where disease was not understood to be a punishment for the breach. of the natural laws of physical purity. In this country he had to get his work done by gradually making his influence felt and he could only succeed in this by giving confidence in his carefulness and energy, in his scrupulous tairness and in the the lute integrity of his purpose and his methods. A disciple of Confucius cores and night what

CONTRACTOR OF THE

Interesting Tors from the Chief

Bir Henry Burkey took one bour and Centre !five minutes to deliver his judgment in the America previously schoolstant owners of the Primethets, for breach of obsertes (portical of which we published

Bir Henry deviates that :---Contraband of var is that will considered by the law of Maticos

The Law of Rations is that gratem of been rules respecting the sights of beligerents and neutrals, established by consumt account letters. that the proposed bank will git the civilised commercial metions of the world, partly written and partly ansing out of custom, and rendered stable by judicial decisions from time to time.

According to the Tresty neutral flag covers themy's goods, with the exception of contribund of goods, with the exception of contribution war, are not liable to capture under the enemy's flag : Blocksden in order to binding, must be efective that her maintained by a force aufhorent mally to prevent aco as to the coast of the energy.

The signatories to the same Treaty agreed that the Powers which shill have this view and desires to maintain a silver signed it, or which shall have accorded to it cannot hereafter enter into any arrangement in regard to the application of the right of neutrals in time of war, which does not, at the same time, rest on the four principles which are the object of the said declaration,

Decisions of the courts of law in Europe and America have resulted in Attaching the following two-fold meaning to contrahand of war :- Absolute contraband of warwhich includes everything useful for war only; That which is conditional contraband of war-which includes all things which though useful for both peace and war become contraband if destined for the purposes of war, excluding from the meaning of contraband of war mon things as ire useful for the purposes of peace only.

Provisions came within the definition of conditional contraband only if and when destined for the enemy's forces. That was the true meaning attached to the expression and was the sense understood by the parties

It cannot be successfully contended that provisions would be regarded by British courts of law as unconditional contraband of war or that there is any likelihood that they will ever take that view.

Had the Court been saked before February 10, and before the issuing of the Ruasian declaration, to construe the meaning of contraband of war, provisions would have been excluded from the category of amoon. ditional contraband.
